Sparking Change in AUA Program

Overview

PROGRAM OBJECTIVE

To support **person-centred care in LTC homes** across Canada through **appropriate use of anti-psychotics** and innovative, non-pharmacological interventions.

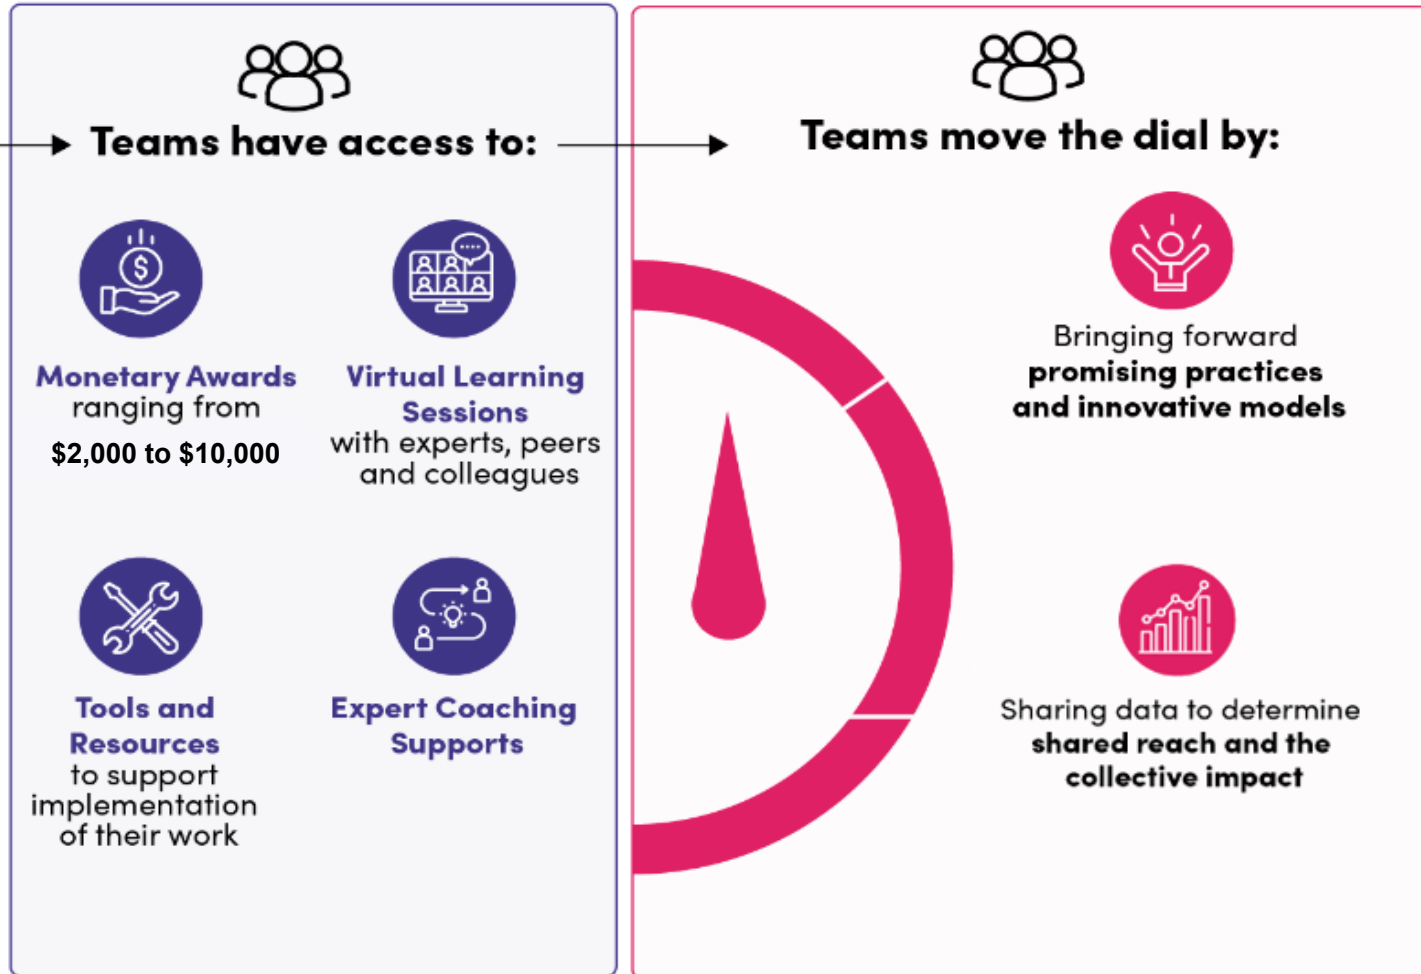

Primary outcome: Reducing inappropriate use of antipsychotics (with balancing measures)

PROGRAM STRUCTURE

Teams trying – or wanting to try – new approaches or models of care to:

- Improve appropriate use of antipsychotics in long-term care homes
- Promote safe, person-centered long-term care

PROGRAM TIMELINE
